‘Safer Working Together’

Abuse & Violence Reporting

Dear Colleagues,

GMB and ASDA would encourage members, to **REPORT** any unwanted incidents of violence and abuse whilst at work.

Following the introduction of body cameras to our Security departments, there has been a near 30% drop in the abuse and violence received by our Security members.

GMB Union, supports the Company's substantial financial investment and an extension of this trial to a further **50 stores**.

The stores chosen for this are those where our members are deemed most at risk from violence and abuse.

The decision was taken using, police reports and our own Companies **ARENA** figures.

If you suffer from any incident of violence and abuse, both verbal and physical whilst at work please, **REPORT** it immediately to your line management and your GMB Shop Steward.

The incident can then be logged on **ARENA**.

On behalf of
