

UPDATE – E-Commerce OVERTIME

Dear Colleagues,

Thank you for the overwhelming levels of feedback given to GMB London Region in response to our last bulletin about your stores offering overtime after consultation. Your responses have been heard loud and clear regarding this issue.

GMB London Region now need your help gathering hard evidence in order to present the matter to Asda House, so that we can challenge the new hours and move towards a resolution. We want our members to be given sufficient hours to get the job done properly.

We would ask that you obtain a copy of your punch details over the last 4 weeks from your store and provide them and a copy of your new contracted hours to your local shop steward or directly via our website at www.gmb-asda.com/support

These punch details will show the overtime that you have been working since adopting your new hours, and will highlight if the hours you have worked have been above and beyond what the home shopping business case says is necessary in your store.

You can request a copy of your punch details from your store's people team. If you have difficulties where you have asked for them, speak to your local GMB shop steward or contact GMB directly so that we can assist in getting you a copy of those details.

Have you been given a shorter contract, and asked to pick up your old hours or more hours as overtime?

If you would like support, advice and representation please speak to your local GMB Shop Steward, or visit the GMB Members' Support Centre at www.gmb-asda.com/support

Regards,

Keith Dixon
ASDA Lead Role Officer
GMB London Region
